

# OSEA2014

The 20th International Oil & Gas Industry Exhibition & Conference

SINCE 1976

## OSEA2014 to be a Major Draw for Oil & Gas Companies in India

New Delhi, 4 September 2014 – [OSEA](#), the biennial tradeshow for the offshore Oil & Gas market and its supporting industries, in its Platinum Edition (20th) scheduled from 2 – 5 December 2014 at Marina Bay Sands, Singapore, will welcome Indian participants from [Windlass Engineers & Services](#), [Rotex Manufacturers and Engineers](#), [Sungov Engineering](#), [Reliance Industries](#), [Oil and Natural Gas Corporation \(ONGC\)](#), and [MarketsandMarkets](#).

[Windlass Engineers & Services](#), [Rotex Manufacturers and Engineers](#) and [Sungov Engineering](#) will be highlighting a range of products and solutions ranging from oilfield equipment to valves to fluid filtration and separation equipment at the exhibition. Separately, ONGC, Reliance Industries and MarketsandMarkets, a research services firm, will be participating at the OSEA2014 International Conference, held alongside the exhibition, to offer an Indian perspective on topics such as new technologies for unconventional and deepwater environments, trends in deepwater flow assurance and future role of LNG for Asia.

The previous edition of OSEA in 2012 saw more than 150 attendees from India who represented companies such as Arya Offshore Services, Chelikam Oil & Gas India, G&T Oil States Industries, Galperti India, Libraa Offshore, Maersk Global Service Centres (India), Reliance Power, Siemag Industries, Tyco Fire & Security India, Valveworks India, Western India Forgings and many others.

### **OSEA2014: Open sea for networking opportunities**

Since its inception in 1976, OSEA has built a sturdy reputation as a networking arena of choice in Asia, providing participants with a multitude of engagements, from serious discussions to relaxed gatherings across four vivacious show days. In addition, they also get to preview a wide showcase of new and improved back-end and field products and technologies, and gain access to interactive conference sessions that bring further opportunities for interaction and knowledge exchange with industry experts and peers on latest trends, challenges and opportunities surrounding the oil and gas landscape in Asia and beyond.

“We are looking at a possible energy crunch in the foreseeable future, given the fast-rising global consumption of oil and gas. Consequently, the need to stay abreast of industry shifts and technological advancements has never been more important,” says Mr. Chua Buck Cheng, Project Director of Engineering Events at [Singapore Exhibition Services](#).

“We have designed OSEA to exactly pinpoint these trends and provide the industry with what’s needed in order to advance, and face the oncoming challenges.”

### **Steadfast growth in international participation**

OSEA2014 will be spread across an impressive 36,000 square metres of exhibition space at Singapore's Marina Bay Sands and will host more than 1,600 exhibitors and 28,000 trade attendees from 45 countries and regions.

With about three months to its opening day, OSEA2014 has already witnessed a 20 per cent growth in the participation of international exhibitors compared to its previous edition in 2012 and the event continues to expand its exhibition space to cater to industry's demands. 15 international group pavilions will be present, including two new groups from Korea and Taiwan.

Regular stalwarts such as the [Association of Dutch Oil and Gas Suppliers \(IRO\)](#), [Association of Singapore Marine Industries \(ASMI\)](#), [China Petroleum Technology and Development Corporation \(CPTDC\)](#), [Damen Shipyards Gorinchem](#), [Franklin](#), [Gazprom](#), [Gaylin](#), [JD Neuhaus](#), [Keppel FELS](#), [Kwong Soon](#), [MTQ](#), [Sea & Land Technologies](#) and [Trisome](#) will be accompanied by contingent of first-time exhibitors, including [Alfagomma](#), [Fujikin](#), [Hagemeyer](#), [Jebsen & Jessen](#), the [Korean International Trade Association \(KITA\)](#), [ST Teleport](#), [Tanken](#), the [World Trade Centre Taichung \(WTCT\)](#) and many more.

Key exhibition profiles:

- Engineering, Fabrication, Construction & Contracting
- Health, Safety & Environment
- Instrumentation & Control Technology
- Marine Equipment & Services
- Pipeline Products & Services

### **OGmTech2014 – Manufacturing solutions for oil and gas**

OGmTech, the International Exhibition on Manufacturing Technology for Oil & Gas, will make its debut at OSEA2014. Focusing on definitive manufacturing solutions, OGmTech2014 represents a value-added platform that brings forth an array of formidable, high-end precision engineering technologies and capabilities for the Oil & Gas industry.

### **OSEA2014 International Conference: Discussion of strategies to spur Oil & Gas industry development**

[OSEA2014 International Conference](#), a distinguished Asian platform where oil and gas industry thought leaders and experts from around the world come together, will unveil a new and stimulating programme that tackles the needs of Asia's oil and gas industry. The Conference, held concurrently with the exhibition, provides a prominent and invaluable platform for discussion on the important issues and challenges facing the industry. More than 200 speakers and delegates from 30 countries/regions attended the last edition of the conference held in 2012.

Commenting on the conference, keynote speaker [John Westwood, Group Chairman of Douglas-Westwood](#) says, “There is keen interest in the Asia Pacific region and as offshore and building activities continue to grow in the future, the region is likely to be a major draw for international and regional companies. Industry expertise and knowledge should also grow along with these developments.”

“I am pleased to note that the OSEA International Conference has been keeping pace with developments in the industry, especially in the Asia Pacific region. This year’s conference programme will be addressing the major issues, trends and impact on the industry as the region continues to grow and I look forward to fruitful discussions with delegates,” Mr. Westwood adds.

### **International and regional experts to give their thoughts on industry’s future**

In the rapidly changing energy landscape where oil and gas reserves are hanging in the balance, industry players are looking at more sustainable and effective ways of managing their current reserves, as well as finding new sources of oil and gas. New technologies are needed in exploration, extracting, processing, storing, and even transporting oil and gas.

Featuring a new theme “*Unlocking the Full Potential of Offshore Reserves with Innovative Solutions*”, the Conference has 10 tracks to address pertinent topics such as the future outlook for oil and gas supply and exploration, resource management through oilfield recovery, latest developments and technologies in unconventional and deepwater environments, as well as two workshops focusing on best practices in drilling & well design and asset integrity management.

The Conference’s speaker line-up includes:

- Måns Lidgren, CEO, [Rex International Holding](#)
- Lin Song, Deputy Project Director & Research Engineer, [PetroChina](#)
- Robert Ziegler, Head, Deepwater Drilling Technology, [Petronas Carigali](#)
- Prof. Dr. Maizar Rahman, Former Indonesian OPEC Governor and Former PT Pertamina Commissioner, [LEMIGAS, Research and Development Center for Oil and Gas Technology](#)
- Leong Seng Keat, CEO, [Nam Cheong](#)
- Christopher Newport, Managing Director, [Corsair Petroleum](#)
- Alessandro Baldanzi, Platform Leader, LNG & NG Offshore, [GE Oil & Gas](#)
- Mohamed Daoud, Manager – Engineering & Projects (E&P), [Abu Dhabi Company for Onshore Oil Operations \(ADCO\)](#)
- Tauseef Kureshi, Global Exploration & Production IT Program Manager, [BG Group](#)
- Michael Surkein, Senior Consultant, Materials Selection and Corrosion Control Group, [ExxonMobil](#)
- Matthieu Lamy, CEO, Document Management and Control Expert, Talengi, [GDF Suez](#)
- U Lynn Myint, General Manager, **North Petro-Chem Corporation (Myanmar)**
- Vinay Kumar Gupta, GM-Head Operational Monitoring Group, IDT, [Oil and Natural Gas Corporation](#)
- David Ontosari, Geologist, [PT Pertamina Hulu Energi Metana Suban](#)
- Dhaval Gupta, Graduate Engineering Trainee, [Reliance Industries](#)

### **Joint Keynote and Case Study**

The OSEA2014 International Conference will open with a Joint Keynote and Case Study. Titled “*The Future of Oil & Gas Exploration and Supply*”, the Joint Keynote will be presented by John Westwood and [Dan K. Eberhart, CEO of Canary](#), an oilfield drilling & production services company. Together, they will be exploring the future technology and exploration trends and sustainability of long term production and resources.

The Joint Case Study will unveil Davide Scotti, Behavioral Safety Manager of [Saipem](#) and Quinten de Bruine, Head HSE of [Vroon](#). Both speakers will converse on “*Leadership in Safety*” and the aspects of the world-class cultural change programme created by an EPIC contractor and successfully adopted by a global marine organisation.

### **Specialised Panel Sessions**

The Conference will also feature specialised panel sessions, including an LNG Panel, a Technology Power Panel, Energy Leaders Panel, Digital Oilfield Leaders Panel and Stakeholders Panel. Delegates will get to listen and learn about latest policy issues in LNG, challenges shale gas poses to LNG to a framework for the digital oilfield, and future trends in offshore development.
